Are you a youth with a disability? What are your plans after high school? Are you considering employment? If you are, we have designed an entire day with you in mind.

Please join us for this one-day conference especially for students and receive valuable information regarding obtaining and maintaining employment. Topics such as keeping a job, setting postsecondary goals, and the importance of disability self-awareness will be highlighted throughout the day.

The conference will emphasize the importance of starting the conversation about planning for life after graduation early. The keynote speaker will be a diplomat from "Eye to Eye," a mentoring movement for students with learning disabilities, who will share his journey from high school to college to planning for a career.

The breakout sessions will focus on the following topics:

- Assistive Technology
- Career and Employment
- Soft Skills
- Transition Goals and Planning

Adult participants are welcome to participate in a guided tour of the TOC (Transmission Operations Center). This exciting opportunity will last about an hour. Please be prepared to show a government issued photo ID such as a driver's license. This is a highly secured facility, therefore no pictures are allowed while on the tour.
