SUBJECT: Occupational Therapy Guidelines

I am pleased to report that the Connecticut Occupational Therapy Association (ConnOTA) with support from the Connecticut State Department of Education (CSDE) has published the *2017 Guidelines for Occupational Therapy in Connecticut Schools*. This document provides a current, concise, and comprehensive reference manual for occupational therapy practitioners, administrators, families, and stakeholders for school settings. The document is housed on the [ConnOTA Website](#) in which additional resources will continue to be made available for school therapy practice in Connecticut. A link to the document will be available on the [CSDE Website](#) as well. As the existing document currently on the CSDE Website is outdated, it will be removed since the new guidelines will provide more up-to-date information.

The CSDE wishes to acknowledge and thank all of the occupational therapy practitioners who have contributed to the publication of this document. Please forward this information to any/all appropriate district personnel.
